

# Availability of Market Conduct Enforcement Actions<sup>1</sup>

## Property & Casualty

Access to market conduct enforcement content is critical in assessing your noncompliance risks or preparing for an examination. The states vary in their approach to offering this information. To date, only 31 offer access to the enforcement actions online, and even fewer, 16, offer it in a way that it can be easily used. ComplianceWare<sup>®</sup> is the most comprehensive source available for market conduct enforcement information.

## About ComplianceWare

ComplianceWare is an easy-to-use market conduct research tool helping property and casualty insurers prepare and respond to examinations, and maintain compliance with market conduct requirements. It gives property and casualty insurers a way to assess market conduct compliance requirements that apply to them by state, lines of business, and market conduct topics. ComplianceWare is the most comprehensive source for market conduct enforcement information covering all available jurisdictions.
